

Built tough. Built for easy cleaning. Built ready-made, or exactly the way you want it.

Greater durability

Rotationally-molded construction resists dents and cracks

Money-saving

Nestable design reduces storage space and shipping costs

Customizable

Choose from numerous color, lid, and identification options

No particulates

Unlike fiber or steel drums, no dust or rust

Guaranteed

100% satisfaction

Easy to clean

Dust-free, smooth polyethylene surface makes for worry-free sanitation

**REMCON
PLASTICS
INCORPORATED**

We listen, develop and deliver!

**This is more than providing you with containers
This is a relationship**

Remcon Plastics has been creating high-quality, durable rotomolded containers for more than 30 years. We value our customers and always seek to understand the challenges that their businesses face. Because we deal with industries where performance is key — industries like pharmaceutical, meat and poultry processing, food and beverage, and fruit and vegetable growing and processing, to name a few — we understand that our customers rely on us to get it right. And we do.

We've listened to what our customers need...really listened. And along the way, we've adapted to fit those needs.

Because if our customers aren't happy, we aren't happy. It's as simple as that.

We built it to last

At Remcon, we don't cut corners. We designed our Drum and Batch Can Series to stand up to the wear and tear of constant, rigorous use. All of our drums and batch cans are made right here in the USA from FDA-compliant, premium virgin polyethylene, not recycled materials. Their thick walls and corners make them extremely resistant to cracks induced by rough handling or cold temperatures.

Our rotomolding process is a science, not a guessing game. We heat and cool the polyethylene for the precise amount of time required for optimal plastic performance. Premium molds make premium parts, and our meticulously engineered molds ensure consistent, high-quality product. And we only source components from reliable partners we have evaluated and trust. All of these factors lead to a more durable and better-performing product you can depend on for years.

Remcon drums and batch cans have been designed specifically for those heavy duty and harsh applications that injection molded versions cannot withstand. Unlike their fiber or steel counterparts, these will not create dust or rust. Their seamless construction makes them strong, durable and extremely easy to clean. They are a perfect choice in applications where a high degree of sanitation is required. They offer a secure way of storing pharmaceutical tablets, in-process food, by-products, ingredients or raw materials, or any heavy parts that require special treatment.

We're here for you

Every new person we meet is a long-term customer in our eyes. We believe that if we provide quality products and treat our customers with integrity and appreciation, everyone wins. We listen to your concerns, and look for ways to help your business. If you have a unique need, we'll find a way to fill it. If you have an issue, we will address it. We will always make sure that you get the attention and service you deserve.

We mean it. Here's your guarantee.

We're sure that our Drum and Batch Can Series offers you the long-lasting, dependable product you're looking for. So sure that if for any reason you're not satisfied with the workmanship or quality of the materials we use in making this product, simply contact us during the first year of ownership. You have our guarantee that we'll address the situation to your satisfaction or refund your money.

How to select the right drum or batch can to meet your needs

At Remcon, not only do we offer some of the industry's most well-designed and well-built drums and batch cans as part of our standard product range, but we specialize in working alongside our customers to design containers specific for their applications. We recognize that sometimes an "off-the-shelf" item will work, and sometimes it will not. That's why we give you the choice to "Buy" or "Build" the drum or batch can that is best for your business.

How to choose:	Our most popular and versatile drum available with multiple lid styles and options	Specifically designed to be used with a clamp for easier material transfer	Equipped with rugged steel handles to make carrying easier	Unique square design utilizes space better than a traditional round drum	Ideal for small batches of material and when tamper-resistance is critical	Dollar for dollar our most economical general purpose container	Designed exclusively to your specifications to fit perfectly with your operations

BUY – Select a drum or batch can style, pick the size you need, and then make it your own by customizing select features

All REMCON drums and batch cans are gray or natural in color and come with the following STANDARD features:

- Made with 100% virgin polyethylene for optimal impact strength
- Polyethylene and pigments used to manufacture the drums and batch cans are all FDA compliant
- Seamless, rotationally-molded construction offers excellent durability, strength, and crack-resistance
- Designed to save space through easy nesting and de-nesting
- Smooth interior surfaces allow for fast material transfer and easy cleaning
- Unlike fiber or steel drums, no dust or rust
- Easy to handle and carry
- Lids sold separately from drum and batch can bases unless noted
- Drums and batch cans stack securely when equipped with lids
- 100% guarantee for one full year

Nestable drums save space

Step 1: Select your model and size

ND Drum Series – Our most popular and versatile drum available with multiple lid styles and options:

Sizes	Capacity		Capacity		Top Outside Diameter		Height		Weight	
	gals	ltrs	cu ft	cu m	in	cm	in	cm	lbs	kg
ND-20*	20.0	76.00	2.70	0.076	17.375	44.1	24	61	10	4.5
ND-30**	30.0	114.00	4.00	0.114	19.125	48.6	31.25	79.4	13.5	6.1
ND-32*	32.0	121.00	4.30	0.121	21.75	55.2	25	63.5	14	6.3
ND-33*	33.0	125.00	4.40	0.125	20.375	51.8	31.375	79.7	14	6.3
ND-35**	35.0	132.00	4.70	0.132	20.375	51.8	29.438	74.8	16	7.3
ND-40***	40.0	151.00	5.30	0.151	21	53.3	33	83.8	19	8.5

* Lever-lock style lid available only
 ** Snap-on and dust-cover style lids available
 *** Snap-on, dust-cover and lever-lock style lids available

NDS Drum Series – Specifically designed to be used with a clamp for easier material transfer:

Sizes	Capacity		Capacity		Top Outside Diameter		Height		Weight	
	gals	ltrs	cu ft	cu m	in	cm	in	cm	lbs	kg
ND-40S*	40.0	151.00	5.30	0.15	22	55.9	33.25	84.5	17	7.6

* Lever-lock style lid available only

NBC Drum Series – Equipped with rugged steel handles to make carrying easier:

Sizes	Capacity		Capacity		Top Outside Diameter		Height		Weight	
	gals	ltrs	cu ft	cu m	in	cm	in	cm	lbs	kg
NBC-7*	7.0	26.50	0.90	0.026	13	33	17	43.2	6	2.7
NBC-10*	10.0	38.00	1.30	0.038	15	38.1	19	48.3	9	4.1

* Snap-on style lid included
 ** Snap-on and dust-cover style lids available

Steel handles

SD Drum Series – Unique square design utilizes space better than a traditional round drum:

Sizes	Capacity		Capacity		Width		Length		Height		Weight	
	gals	ltrs	cu ft	cu m	in	cm	in	cm	in	cm	lbs	kg
SD-20*	20.0	76.00	2.70	0.076	13.375	34	16.5	41.9	28	71.1	15	6.8

* Snap-on style lid included

MD Tote Series – Ideal for small batches of material and when tamper-resistance is critical:

Sizes	Capacity		Capacity		Width		Length		Height		Weight	
	gals	ltrs	cu ft	cu m	in	cm	in	cm	in	cm	lbs	kg
MD-7105*	6.0	22.70	0.80	0.023	12.5	31.8	12.5	31.8	14	35.6	5.7	2.6
MD-7106*	7.0	26.50	0.90	0.026	12.5	31.8	12.5	31.8	16	40.1	6	2.7

* Snap-on style lid included

NB Tote Series – Dollar for dollar our most economical general purpose container:

Sizes	Capacity		Capacity		Width		Length		Height		Weight	
	gals	ltrs	cu ft	cu m	in	cm	in	cm	in	cm	lbs	kg
NB-10*	17.0	64.40	2.30	0.064	20	50.8	24	61	12	30.5	12	5.4

* Dust-cover style lid included

Step 2: Customize it even more

Here's the fun part. Need stenciling? Want a color other than standard gray or natural? We can do that. Upgrade your drum or batch can to get exactly what you need.

BUILD – Let us work with you to create a new drum or batch can with all the unique features you need

REMCON specializes in custom solutions by:

- listening carefully to what you are doing and what you want to achieve
- studying your application for potential consolidation of parts
- brainstorming with our design and production teams
- building and assembling a product that will last for years
- creating a unique solution that's right for your company

Our entire engineering design team has created custom plastic rotational molding solutions to satisfy the toughest problems and the finest details. Our team of designers and lean manufacturing specialists will visit your facility, map your process, and develop the optimum container solution for your needs.

Call us to discuss your situation.

Call us today.

We'll get you the right products
and solutions to help your business.
