

## This is Sara. She uses inexpensive plastic lugs.

Sara and her company shop for the cheapest price. They buy the least expensive injection molded plastic lugs they can find. Sometimes they save up to 40% up front compared to other lugs on the market. Consequently, these lugs crack and break. This creates a potential contamination problem, but they just replace the lugs as needed.

They are continually reordering in order to keep their supply of 2,000 lugs in good shape for use on the production floor.

**WORST SOLUTION**

**Total Cost Over 2 Years**  
**\$201,600**

## This is Joe. He uses long-lasting Remcon plastic lugs.

John and his company will only buy Remcon rotomolded plastic lugs. They have bought the cheaper injection molded plastic lugs in the past, and they have experienced the pain and additional costs that come from the never-ending cycle of cracking, breaking, and continual purchasing of replacement lugs.

Just like Sara and her company, Joe and his company need 2,000 lugs to run their business.

**BEST SOLUTION**

**Total Cost Over 2 Years**  
**\$60,000**

## Remcon plastic lugs can make you a superhero.

Remcon rotomolded plastic lugs may cost more up front compared to inferior injection molded plastic lugs, but, as Joe knows, the way to save company money over the long-term is with durable Remcon plastic lugs.

Who really saves the company money?		
	Sara Inexpensive plastic lugs	Joe Remcon plastic lugs
Total cost over 2 years	\$201,600	\$60,000
Total savings over 2 years	\$0	<b>\$141,600</b> <i>Backed by Remcon's 2 year guarantee</i>
Total savings over 4 years	\$0	<b>\$340,000</b> <i>It is not uncommon for Remcon products to last more than twice their warranty period</i>

Plus, making the switch to Remcon plastic lugs today will also result in:

- Less purchasing activity
- Less receiving activity
- Less inbound freight
- Less waste
- Improved environmental impact
- Improved sanitation in your facility

### No reordering costs!

We guarantee your Remcon plastic lugs will last a minimum of 2 years, or we will replace them for FREE if there are defects due to materials or workmanship.

*"Remcon stands for quality and durability. They stand behind their products and help improve your bottom line. I tried another bin because it was cheaper, and it did not work at all. I went right back to Remcon."*

*-Tom Freimuth, Deli Brands of America*

*"You can always buy cheaper bins, but this Remcon bin will last you a long time. We've never thrown one away. You have to look at the long-term effect on your investment. We are very satisfied with the way they last and hold up."*

*-Jack Foulke, John F. Martin & Sons*

*"The biggest difference between the Remcon bins and the other bins I used is, first and foremost, the durability. You can see the quality, the thickness. They don't crack."*

*-Steven Feldhammer, Wonder Meats, Inc.*
