

Adaptable. Flexible. Maneuverable.

Easy to move

Lightweight design
makes handling and
positioning simple

Long-lasting

Will not crumble or break
after multiple deployments
like concrete barriers

Versatile

Customize with lights, striping
or fencing to create safer
work zones or pathways

Adaptable

Easily create highly-visible
continuous lines or angles up to 90°

Durable

Polyethylene construction
stands up to harsh weather
conditions and resists dents
and cracks upon impact

GUARDSAFE—providing adaptable solutions for more than 30 years

There are a lot of barriers in the marketplace now, but ours started it all. Remcon Plastics has been creating high-quality, durable roto-molded barriers for more than 30 years. In fact, in 1990, while working as a supplier in the plastic barrier industry, we created the standard that is still used today. Since then, we've been listening to what our customers need, and along the way, we've modified our products to fit those needs. The result is the new GUARDSAFE® 36 Barricade.

Designed with the user in mind, the GUARDSAFE 36 is adaptable to the needs of almost anyone looking to purchase barricades for their next project.

GUARDSAFE® 36 Barricade

Remcon's NEW GUARDSAFE 36 water-filled barricade is the ideal product for traffic and pedestrian channelization in almost any environment. Our brand new swivel pin and lock design allows users to easily connect and rotate barricades to 90°. All of our traffic safety products are manufactured with rotationally-molded polyethylene, which allows the barricade to stand up to the harshest weather conditions and resist dents and cracks.

Features/Benefits:

- Each GUARDSAFE 36 Barricade comes with (1) swivel pin that allow users to connect and rotate barricades to 90°.
- Ideal for temporary work zones, perimeter fencing, crowd control and more.
- Easily accepts rolled fence and/or fence panels to increase visibility and security for any project.
- Lightweight design and two forklift holes make transportation and positioning easier for users.
- This product has passed the test for the FHWA MASH TL-1 standards as a Longitudinal Channelizing Device (LCD).

Molded-in pocket for standard blinking light / pin coupler

GUARDSAFE 36 interlocking pin

Width		Length		Height		Weight	
in	cm	in	cm	in	cm	lbs	kg
24	60.96	72	182.88	36	91.44	70	31.75

All GUARDSAFE products feature the following benefits:

- Molded-in recessed handles and relatively lightweight design make it easy to move and position.
- Energy-absorbing design makes an effective and economical alternative to concrete barriers.
- Ideal for crowd and traffic control, checkpoints, and security.
- Flat side surfaces easily accept reflective striping.

GUARDSAFE® 42 Barrier

Channel vehicles and people through construction, parking, and entrance areas with lightweight and easy-to-maneuver GUARDSAFE Barriers.

Features/Benefits:

- Tongue and groove end feature allows connected units to form continuous lines and curves angled up to 15°.
- Two molded-in pockets on top of the barrier accept standard blinking lights.
- Available in three standard weights and three standard high-visibility colors.
- Can be used as a TL-2 Barrier when used with steel pipe couplers.

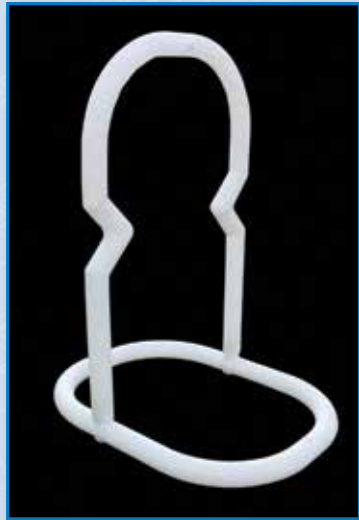

Drain plug

Threaded fill cap

Options	Width		Length		Height		Weight	
	in	cm	in	cm	in	cm	lbs	kg
Lightweight	24	60.96	72	182.88	42	106.68	100	45.35
Standard	24	60.96	72	182.88	42	106.68	130	58.96
Heavyweight	24	60.96	72	182.88	42	106.68	170	77.11

- Large, threaded top fill-port and bottom drain plugs make it easy to load and unload with sand or water ballast.
- Bright colors improve safety and are easier to see than concrete or wood.
- All Remcon Barriers and Barricades are rotationally molded to assure durability and resistance to harsh conditions.

Breakaway Barricades

Use rugged Type III Breakaway Barricades on roads, streets, and highways for more economical and longer-lasting performance than wood.

Economical	Less expensive than wood barriers
Easy to handle	Lightweight units take minimal effort to assemble or store
Durable	Will not shatter if struck by vehicles
Maximum strength	UV-resistant virgin polyethylene adds impact strength
Versatile	Unassembled units stack tightly and save space
Guaranteed	100% satisfaction

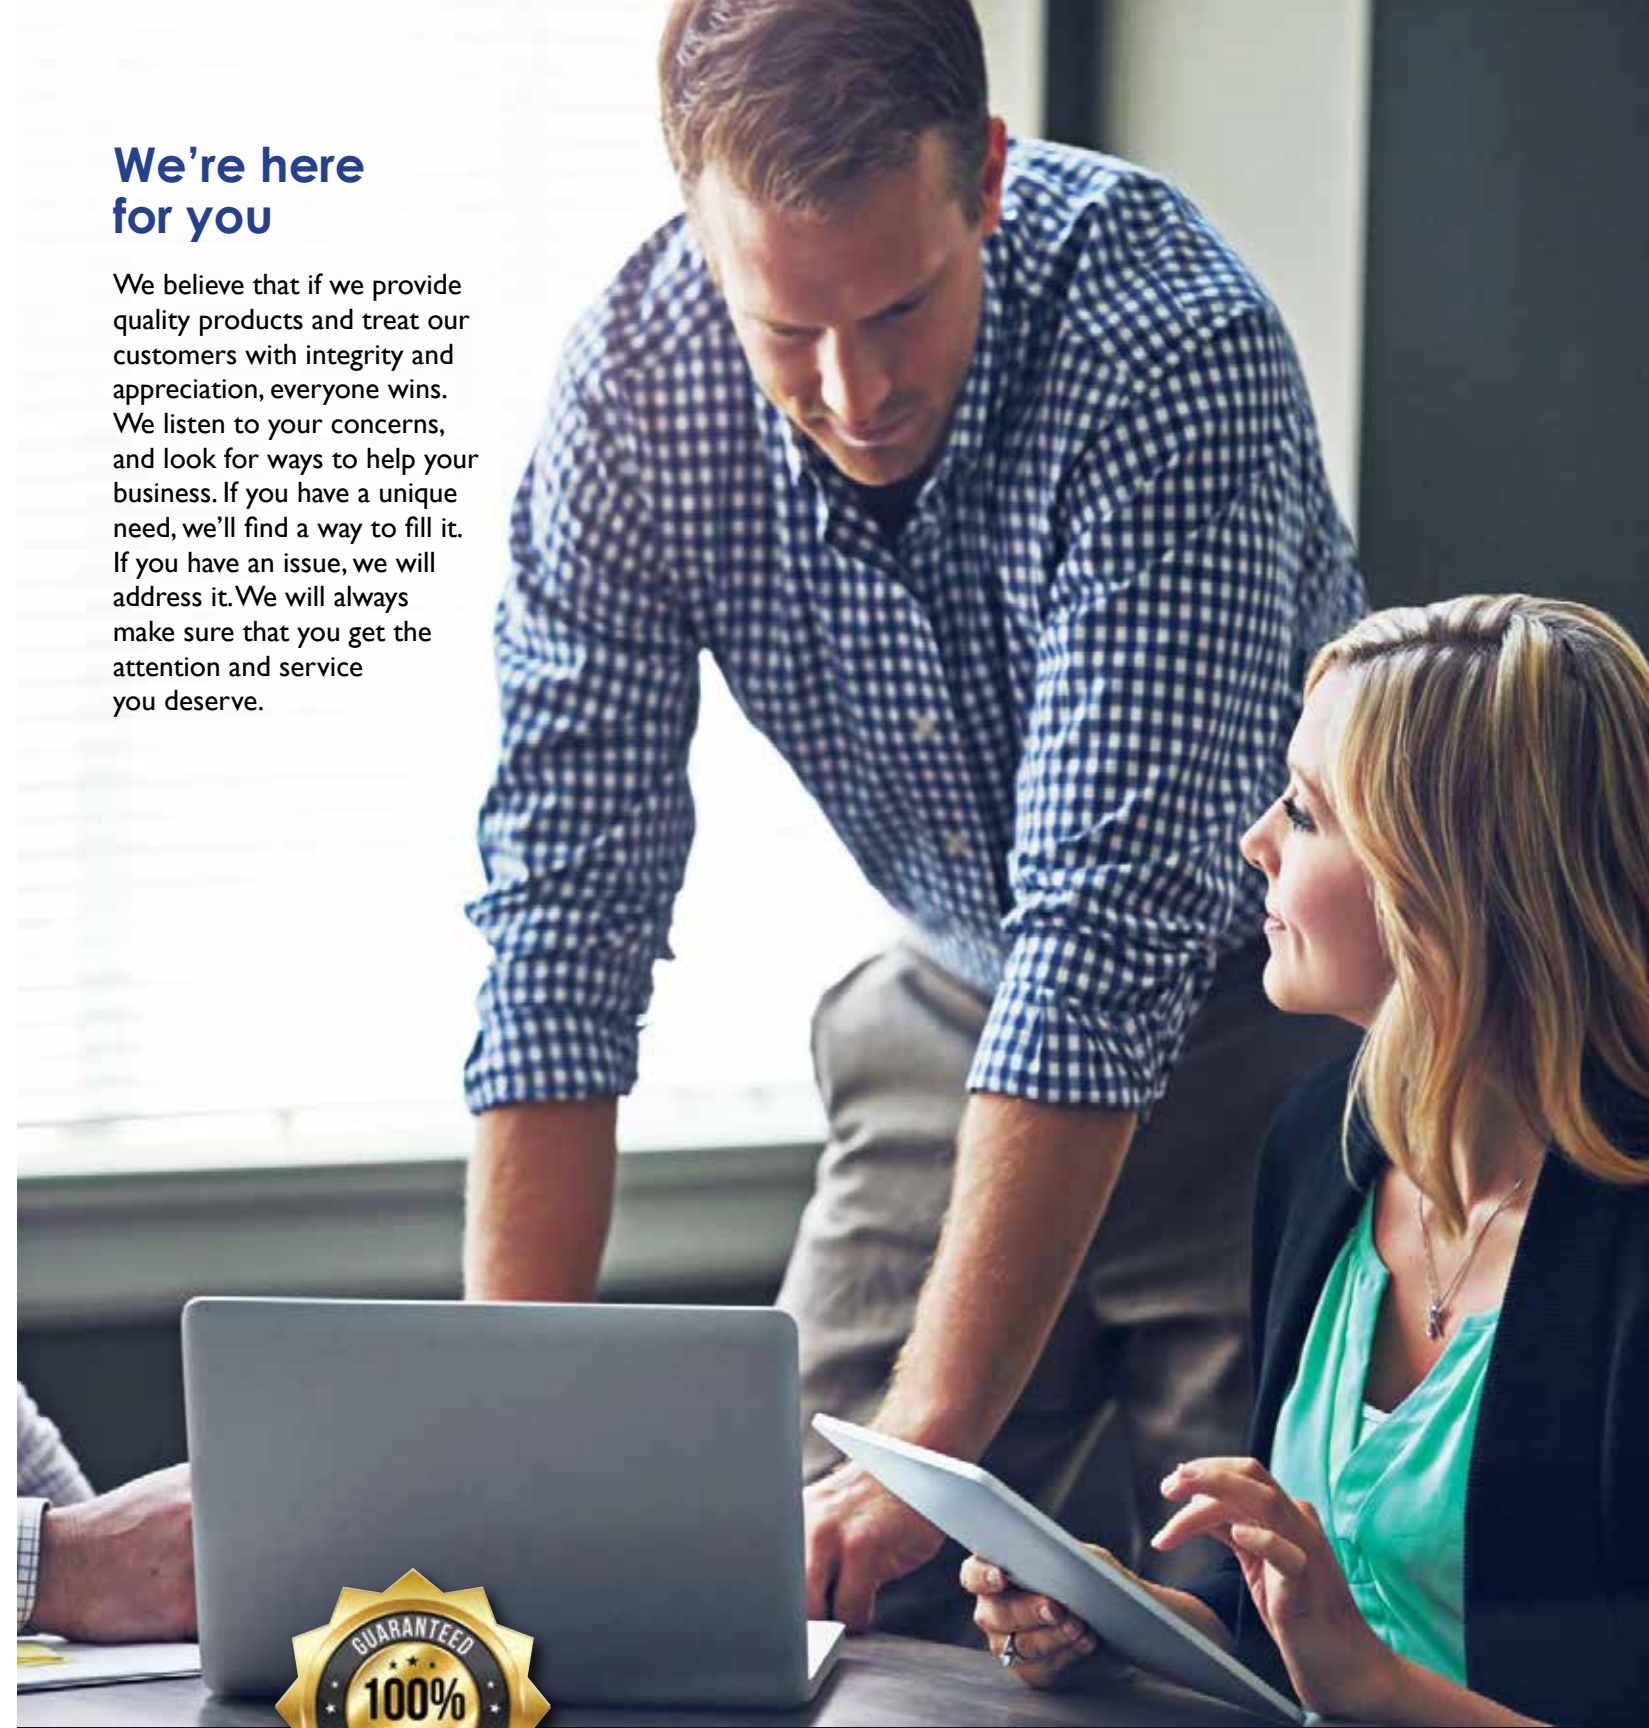

All REMCON Breakaway Barricades are natural in color with the following standard features:

- Create a visual warning without causing major damage if struck by a vehicle
- Made with 100% virgin polyethylene for optimal impact strength and rugged performance
- High resistance to sunlight and ultraviolet radiation means the product stays in service longer
- Will not rot or decay like wooden barricades, making them a more economical alternative
- Robust construction means the upright of the units stay sturdy even after years of use
- Lightweight, two-piece units snap together for use, but also meet NCHRP 350 Type III Breakaway Barricade standards
- Barricade has been designed with a unique stacking detail, allowing the units to interlock with one another for added convenience during breakdown and transport
- Specifically designed not to shatter when struck by a passing car or truck
- Ideal for highway safety
- Accepts three standard 4' or 6' reflective rails
- 100% guarantee for one full year

Options	Width		Length		Height		Weight	
	in	cm	in	cm	in	cm	lbs	kg
Breakaway Barricade base and upright	36.5	93	48.5	123	56	142	16	7
Breakaway Barricade replacement base	36.5	93	48.5	123	3.5	9	8	3.5
Breakaway Barricade replacement upright	36.6	93	3.5	9	56	142	8	3.5

We're here for you

We believe that if we provide quality products and treat our customers with integrity and appreciation, everyone wins. We listen to your concerns, and look for ways to help your business. If you have a unique need, we'll find a way to fill it. If you have an issue, we will address it. We will always make sure that you get the attention and service you deserve.

We mean it. Here's your guarantee.

We're sure that our Traffic Safety Series offers you the long-lasting, dependable product you're looking for. So sure that if, for any reason, you're not satisfied with the workmanship or quality of the materials we use in making this product, simply contact us during the first year of ownership. You have our guarantee that we'll address the situation to your satisfaction or refund your money.

Call us today.

We'll get you the right products
and solutions to help your business.
